## Management's Responsibility

The municipality's management is responsible for the preparation and presentation of the accompanying consolidated financial statements in accordance with Canadian public sector accounting standards (PSAS). The preparation of the statements necessarily includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgments and estimates by management are required.

In discharging its responsibilities for the integrity and fair presentation of the consolidated financial statements, management designs and maintains the necessary accounting, budget and other related internal controls to provide reasonable assurance that transactions are appropriately authorized and accurately recorded, that assets are properly accounted for and safeguarded, and that financial records are properly maintained to provide reliable information for the preparation of the consolidated financial statements.

The Council is composed of elected officials who are not employees of the municipality. The Council is responsible for overseeing management in the performance of its financial reporting responsibilities. The Council fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with external auditors. The Council is also responsible for recommending the appointment of the municipality's external auditors.

Grant Thornton LLP, an independent firm of Chartered Professional Accountants, is appointed by the Council to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Council and management to discuss their audit findings.

## INDEPENDENT AUDITOR'S REPORT

To the Council of the Rural Municipality of Rosthern No. 403

#### Qualified Opinion

We have audited the consolidated financial statements of the Rural Municipality of Rosthern No. 403 (the Municipality), which comprise the consolidated statement of financial position as at December 31, 2020, and the consolidated statements of operations and accumulated surplus and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matter described in the *Basis for Qualified Opinion* section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Municipality as at December 31, 2020, and the results of its operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

#### Basis for Qualified Opinion

We were not able to observe the counting of inventories at December 31, 2020 and December 31, 2019 or satisfy ourselves by alternative means concerning inventory quantities as at those dates. As a result of this matter, we were unable to determine whether adjustments might have been necessary in respect of the surplus of revenues over expenses and cash flows from operating activities for the years ended December 31, 2020 and December 31, 2019, inventory reported in supplies on the statement of financial position as at December 31, 2020 and December 31, 2019 and accumulated surplus as at December 31, 2020, January 1, 2020 and December 31, 2019. Our audit opinion on the financial statements for the year ended December 31, 2019 was modified accordingly because of the possible effects of this limitation in scope.

As outlined in Note 8 to the financial statements, the Municipality maintains a solid waste landfill site for which it has recorded an estimate of its closure and post-closure liabilities, but in a manner that is not consistent with Canadian public sector accounting standards. This constitutes a departure from Canadian public sector accounting standards, which require the closure and post-closure liabilities to be recognized on a volumetric basis as the landfill site capacity is used, beginning when the site first accepts waste. This is the result of a cost-benefit decision taken by management not to engage a third party to determine the liability until the site is closed. The impact of this departure from Canadian public sector accounting standards has not been determined and therefore, we were not able to determine whether any adjustments might be necessary to the surplus of revenues over expenses and cash flows for the year ended December 31, 2020 and December 31, 2019, landfill closure and post-closure liabilities as at December 31, 2020 and December 31, 2019 and net financial assets as at January 1 and December 31, 2019 and net financial assets as at January 1 and December 31, 2019. Our audit opinion on the financial statements for the year ended December 31, 2019 was modified in respect of this departure from Canadian public sector accounting standards.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Municipality in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with those requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

#### Emphasis of Matter

We draw attention to Note 17 to the financial statements, which explains that certain comparative information presented for the year ended December 31, 2019 has been restated. Our opinion is not modified in respect of this matter.

## Other Matter

Our audit was conducted for the purposes of forming an opinion on the consolidated financial statements taken as a whole. Schedules 1, 2, 3, 7, 9 and 10 are presented for purposes of additional information and are not a required part of the consolidated financial statements. Such information has been subjected to the auditing procedures applied, only to the extent necessary to express an opinion, in the audit of the consolidated financial statements taken as a whole.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Municipality or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Municipality's financial reporting process.

Independent Auditor's Report to the Council of Rural Municipality of Rosthern No. 403 (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Municipality's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Municipality's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Municipality to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Entity and the organizations it controls to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **Notes to Consolidated Financial Statements**

As at December 31, 2020

### 1. Significant accounting policies

The consolidated financial statements of the municipality have been prepared by management in accordance with Canadian public sector accounting standards (PSAS) as recommended by the Chartered Professional Accountants of Canada (CPA Canada). Significant aspects of the accounting policies adopted by the municipality are as follows:

Basis of accounting: The consolidated financial statements are prepared using the accrual basis of accounting. The accrual basis of accounting requires revenues to be recognized as they become available and measurable and expenses are recognized as they are incurred and measurable as a result of the receipt of goods and services and the creation of a legal obligation to pay.

#### (a) Reporting Entity:

The consolidated financial statements consolidate the assets, liabilities and flow of resources of the municipality. The entity is comprised of all of the organizations that are owned or controlled by the municipality and are, therefore, accountable to the Council for the administration of their financial affairs and resources. Entities included in these consolidated financial statements are as follows:

Entity Sask Valley Rural Water Utility

All inter-organizational transactions and balances have been eliminated.

## (b) Collection of funds for other authorities:

Collection of funds by the municipality for school boards, municipal hail and conservation and development authorities are collected and remitted in accordance with relevant legislation.

#### (c) Government Transfers:

Government transfers are the transfer of assets from senior levels of government that are not the result of an exchange transaction, are not expected to be repaid in the future, or the result of a direct financial return. Government transfers are recognized as revenue in the period that the events giving rise to the transfer occur, providing:

- a) the transfers are authorized
- b) any eligibility criteria and stipulations have been met; and
- c) reasonable estimates of the amounts can be made.

Unearned government transfer amounts received will be recorded as deferred revenue until eligibility criteria or stipulations are met.

Earned government transfer amounts not received will be recorded as an amount receivable.

Government transfers to individuals and other entities are recognized as an expense when the transfers are authorized and all eligibility criteria have been met.

## (d) Deferred Revenue - Fees and Charges:

Certain user charges and fees are collected for which the related services have yet to be performed. Revenue is recognized in the period when the related expenses are incurred or services performed. Resources restricted by agreement with an external party are recognized as revenue in the municipality's financial statements in the period in which the resources are used for the purpose or purposes specified. An externally restricted inflow received before this criterion has been met is recorded as a liability until the resources are used for the purpose or purposes specified.

#### (e) Local Improvement Charges:

Local improvement projects financed by frontage taxes recognize any prepayment charges as revenue in the period assessed.

## (f) Net Financial Assets:

Net Financial Assets at the end of an accounting period are the net amount of financial assets less liabilities outstanding. Financial assets represent items such as cash and those other assets on hand which could provide resources to discharge existing liabilities or finance future operations. These include realizable assets which are convertible to cash and not intended for consumption in the normal course of operations.

## (g) Non-financial assets:

Tangible capital and other non-financial assets are accounted for as assets by the government because they can be used to provide government services in future periods. These assets do not normally provide resources to discharge the liabilities of the government unless they are sold.

## **Notes to Consolidated Financial Statements**

### As at December 31, 2020

### 1. Significant accounting policies (continued)

## (h) Appropriated Reserves:

Reserves are established at the discretion of Council to designate surplus for future operating and capital transactions. Amounts so designated are described on Schedule 8.

## (i) Property Tax Revenue:

Property tax revenue is based on assessments determined in accordance with Saskatchewan Legislation and the formulas, principles, and rules in the Saskatchewan Assessment Manual. Tax mill rates are established annually by council following the guidance of the Government of Saskatchewan. Tax revenues are recognized when the tax has been authorized by bylaw and the taxable event has occurred, provided the revenues are expected to be collected. Requisitions operate as a flow through and are excluded from municipal revenue.

## (j) Investments:

Portfolio investments are valued at the lower of cost, less any provisions for other than temporary impairment. Investments with terms of 91 days to one year have been classified as other short-term investments and investments with terms longer than one year have been classified as other long-term investments concurrent with the nature of the investment.

#### (k) Inventories:

Inventories of materials and supplies expected to be used by the municipality are valued at the lower of cost or replacement cost. Inventories of land, materials and supplies held for resale are valued at the lower of cost or net realizable value. Cost is determined by the average cost method. Net realizable value is the estimated selling price in the ordinary course of business.

#### **Notes to Consolidated Financial Statements**

### As at December 31, 2020

#### Significant accounting policies (continued)

#### (I) Tangible Capital Assets:

All tangible capital asset acquisitions or betterments made throughout the year are recorded at their acquisition cost. Initial costs for tangible capital assets that were acquired and developed prior to 2009 were obtained via historical cost information or using current fair market values discounted by a relevant inflation factor back to the point of acquisition. Donated tangible capital assets received are recorded at their fair market value at the date of contribution. The cost of these tangible capital assets less any residual value are amortized over the asset's useful life using the straight-line method of amortization. Tangible capital assets that are recognized at a nominal value are disclosed on Schedule 6. The municipality's tangible capital asset useful lives are estimated as follows:

#### Asset

## **Useful Life**

#### General Assets

Land Indefinite
Land Improvements 5 to 20 Years
Buildings 10 to 50 Years
Vehicles & Equipment
Vehicles 5 to 10 Years
Machinery and Equipment 5 to 10 Years

#### Infrastructure Assets

Infrastructure Assets 30 to 75 Years Water & Sewer 30 to 75 Years Road Network Assets 30 to 75 Years

**Government contributions**: Government contributions for the acquisition of capital assets are reported as capital revenue and do not reduce the cost of the related asset.

Works of Art and Other Unrecognized Assets: Assets that have a historical or cultural significance, which include works of art, monuments and other cultural artifacts are not recognized as tangible capital assets because a reasonable estimate of future benefits associated with this property cannot be made.

Capitalization of Interest: The municipality does not capitalize interest incurred while a tangible capital asset is under construction.

Leases: All leases are recorded on the consolidated financial statements as either a capital or operating lease. Any lease that transfers substantially all of the benefits and risk associated with the leased asset is classified as a capital lease and recorded as a tangible capital asset. At the inception of a capital lease, an asset and a payment obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments and the asset's fair market value. Assets under capital lease are amortized on a straight line basis, over their estimated useful lives. Any other lease not meeting the before mentioned criteria is classified as an operating lease and rental payments are expensed as incurred.

## (m) Landfill liability:

The municipality maintains a waste disposal site. The costs to close and maintain solid waste landfill sites are based on estimated future expenses, adjusted for inflation and discounted to current dollars. The annual provision is reported as an expense and the accumulated provision is reported as a liability on the Consolidated Statement of Financial Position. Recommended disclosure is provided in Note 8.

#### (n) Trust Funds:

Funds held in trust for others, under a trust agreement or statute, are not included in the consolidated financial statements as they are not controlled by the municipality.

## (o) Employee benefit plans:

Contributions to the municipality's multi-employer defined benefit plans are expensed when contributions are made. Under the defined benefit plan, the municipality's obligations are limited to their contributions.

## Notes to Consolidated Financial Statements

### As at December 31, 2020

#### Significant accounting policies (continued)

#### (p) Liability for Contaminated Sites:

Contaminated sites are a result of contamination being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds an environmental standard. The liability is recorded net of any expected recoveries. A liability for remediation of contaminated sites is recognized when all the following criteria are met:

- a) an environmental standard exists;
- b) contamination exceeds the environmental standard;
- c) The municipality:
  - i. is directly responsible; or
  - ii. accepts responsibility;
- d) it is expected that future economic benefits will be given up; and
- e) a reasonable estimate of the amount can be made.

Any revisions to an amount previously recognized are accounted for in the period in which the revisions are made.

## (q) Measurement Uncertainty:

The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenditures during the period. Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary.

The measurement of materials and supplies are based on estimates of volume and quality. The 'Opening Asset costs' of tangible capital assets have been estimated where actual costs were not available. Amortization is based on the estimated useful lives of tangible capital assets.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the periods in which they become known.

## (r) Basis of segmentation/Segment report:

The municipality follows the Public Sector Accounting Board's recommendations requiring financial information to be provided on a segmented basis. Municipal services have been segmented by grouping activities that have similar service objectives (by function). Revenues that are directly related to the costs of the function have been attributed to each segment. Interest is allocated to functions based on the purpose of specific borrowings.

The segments (functions) are as follows:

General Government: Provides for the administration of the municipality.

Protective Services: Comprised of expenses for Police and Fire protection.

**Transportation Services:** Responsible for the delivery of public works services related to the development and maintenance of roadway systems and street lighting.

**Environmental and Public Health:** The environmental segment provides waste disposal and other environmental services. The public health segment provides for expenses related to public health services in the municipality.

Planning and Development: Provides for neighbourhood development and sustainability.

Recreation and Culture: Provides for community services through the provision of recreation and leisure services.

Utility Services: Provides for delivery of water, collecting and treating of wastewater and providing collection and disposal of solid waste.

#### (s) Budget Information:

Budget information is presented on a basis consistent with that used for actual results. The budget was approved by Council on May 5, 2020.

#### **Notes to Consolidated Financial Statements**

As at December 31, 2020

- 1. Significant accounting policies (continued)
- (t) New Accounting Standards and Amendments to Standards:

Future Accounting Standards, Effective for fiscal years beginning on or after April 1, 2022:

PS 1201 Financial Statement Presentation, replaces PS 1200 with revised general reporting principles and standards of presentation and disclosure in government financial statements. Requires a new statement of re-measurement gains and losses separate from the statement of operations arising from the re-measurement of financial instruments and items denominated in foreign currencies, as well as the government's proportionate share of other comprehensive income that arises when a government includes the results of government business enterprises and partnerships. Effective in the period PS 3450 and PS 2601 are adopted. Effective in the period PS 3450 and PS 2601 are adopted.

PS 2601 Foreign Currency Translation, replaces PS 2600 with revised guidance on the recognition, presentation and disclosure of transactions that are denominated in a foreign currency. Requires that monetary assets and liabilities denominated in a foreign currency and non-monetary items included in the fair value category, denominated in a foreign currency, be adjusted to reflect the exchange rates in effect at the financial statement date. Unrealized gains and losses are to be presented in the statement of re-measurement gains and losses.

PS 3041 Portfolio Investments, replaces PS 3040 with revised guidance on accounting for, and presentation and disclosure of, portfolio investments. Removes the distinction between temporary and portfolio investments. Upon adoption of PS 3450 and PS 3041, PS 3030, Temporary Investments, will no longer apply. Effective in the period PS 3450, PS 2601 and PS 1201 are adopted.

PS 3450 Financial Instruments, a new standard establishing guidance on the recognition, measurement, presentation and disclosure of financial instruments, including derivatives. The standard requires fair value measurement of derivatives and equity instrument that are quoted in an active market; all other financial instruments can be measured at cost/amortized cost or fair value at the election of the government. Unrealized gains and losses are presented in a new statement of re-measurement gains and losses. There is the requirement to disclose the nature and extent of risks arising from financial instruments and clarification is given for the derecognition of financial liabilities.

PS 3280 Asset Retirement Obligations, a new standard establishing guidance on the accounting and reporting of legal obligations associated with the retirement of tangible capital assets controlled by a government or government organization. A liability for a retirement obligation can apply to tangible capital assets either in productive use or no longer in productive use. As this standard includes solid waste landfill sites active and post-closing obligations, upon adoption of this new standard, existing Solid Waste Landfill Closure and Post-Closure Liability section PS 3270 will be withdrawn.

## Effective for fiscal years beginning on or After April 1, 2023:

PS 3400, Revenue, a new standard establishing guidance on how to account for and report on revenue. The standard provides a framework for recognizing, measuring and reporting revenues that arise from transactions that include performance obligations and transactions that do not have performance obligations. Performance obligations are enforceable promises to provide specific goods or services to a specific payer.

The extent of the impact on adoption of these future standards is not known at this time.

2.	Cash and Temporary Investments	2020	2019
	Cash and Temporary Investments Temporary Investments Restricted Cash	\$ 6,227,353 2,315,738 504,837	\$ 4,837,502 2,262,792 710,523
	Total Cash and Temporary Investments	\$ 9,047,928	\$ 7,810,817

Cash and temporary investments include balances with banks, term deposits, marketable securities and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for other then specific current purposes is included in restricted cash.

Included in restricted cash is the cash held by the Sask Valley Rural Water Utility.

	MEEP Balance - Beginning of Year				
	Additions during the year Reductions during the year	<i>u</i>	330,575 (305,000)		<u> </u>
	Balance - End of Year	92	25,575		
	Gas Tax Balance - Beginning of Year		360,731		101,657
	Additions during the year Reductions during the year	_	203,550		259,074
	Balance - End of Year		564,281		360,731
	Grand total	\$	589,260	\$	360,931
8 8	Accrued Landfill Costs		Ei		
		-	2020		2019
	Environmental Liabilities	\$	262,053	\$	262,053

In 2020 the municipality has accrued an overall liability for environmental matters in the amount of \$262,053 (prior year - \$262,053) which represents management's best estimate of this liability. By their nature, these estimates are subject to measurement uncertainty and the effect on the consolidated financial statements of changes in such estimates in future periods could be significant.

Included in environmental liabilities is \$262,053 (prior year - \$262,053) of the estimated total landfill closure and post-closure care expenses. The estimated liability for these expenses is recognized as the landfill site's capacity is used and the reported liability represents the portion of the estimated total expenses recognized as at December 31, 2020 based on the cumulative capacity used at that date, compared to the total estimated landfill capacity. Estimated total expenditures represent the sum of the discounted future cash flows for closure and post-closure care activities discounted at the municipality's average long-term borrowing rate of 3.95 % (prior year - 3.95 %).

Landfill closure and post-closure care requirements have been defined in accordance with The Environmental Management and Protection Act and include final covering and landscaping of the landfill, pumping of ground water, methane gas and leachate management, and ongoing environmental monitoring, site inspection and maintenance. The reported liability is based on estimates and assumptions with respect to events extending over a 20-year period using the best information available to management. Future events may result in significant changes to the estimated total expense, capacity used or total capacity and the estimated liability, and would be recognized prospectively, as a change in estimate, when applicable.

The estimated remaining capacity of the landfill is 0% - 0 cubic metres (prior year - 0% - 0 cubic metres) of its total estimated capacity and its estimated remaining life is 0 years (prior year - 0 years). The period for post-closure care is estimated to be 20 years (prior year - 20).

## **Notes to Consolidated Financial Statements**

As at December 31, 2020

### 9. Liability for Contaminated Sites

The municipality does not currently have a liability for any contaminated sites in the community. All properties that have environmentally risky histories are still under the ownership of the corporation or individual that operated on the property and all property tax and/or other liabilities to the municipality are current. There is currently no risk that any of these properties will become the responsibility of the municipality.

### 10. Long-term Debt

The debt limit of the municipality is \$3,455,862. The debt limit for a municipality is the total amount of the municipality's own source revenues for the preceding year (The Municipalities Act Section 161(1)).

Banl loan held by Sask Valley Rural Water Utility is repayable at Affinity Credit Union bearing interest at 4.95% per annum, repayable in monthly blended payments of \$5,632. The loan matures in 2023.

Future principal and interest payments are as follows:

	<u>-</u>	Principal	Interest	2020	2019
Year					
2021	\$	56,315	\$ 11,269	\$ 67,584	\$ 67,584
2022		58,820	8,764	67,584	67,584
2023		61,798	5,786	67,584	67,584
2024		83,159	343	83,502	83,502
	\$	260,092	\$ 26,162	\$ 286,254	\$ 286,254

## 11. Comparative Figures

Certain of the prior year comparative figures may have been restated to conform to the current year's presentation.

## **Notes to Consolidated Financial Statements**

As at December 31, 2020

#### 12. Pension Plan

The municipality is an employer member of the Municipal Employee Pension Plan (MEPP), which is a multi-employer defined benefit pension plan. The Commission of MEPP, representing plan member employers, is responsible for overseeing the management of the pension plan, including investment of assets and administration of benefits. The municipality pension expense in 2020 was \$35,967. The benefits accrued to the municipality's employees from MEPP are calculated using the following: pensionable years of service, highest average salary, and the plan accrual rate.

Every three years, an actuarial valuation is performed to assess the financial position of the plan and the adequacy of plan funding. Any actuarially determined deficiency is the responsibility of the participating employers and employees, which could affect future contribution rates and/or benefits. Contributions to MEPP are not segregated in separate accounts or restricted to provide benefits to the employees of a particular employer. As a result, individual employers are not able to identify their share of the underlying assets and liabilities, and the net pension assets or liabilities for the plan are not recognized in these consolidated financial statements. Rather, the plan is accounted for as a defined contribution plan where the contributions are expensed when made.

	2020	2019
Details of MEPP  Number of active members  Member contribution rates (correction of colors):	12	12
Member contribution rates (percentage of salary): Employee contribution - general members Employer contribution - general members Employee contribution - designated members (police	9.00% 9.00%	9.00% 9.00%
officers and firefighters)  Employer contribution - designated members (police officers and fire fighters)	12.50% 12.50%	12.50% 12.50%
Member contributions for the year Employer contributions for the year	35,967 35,967	35,862 35,862
Financial position of the plan: Plan assets Plan liabilities Accounting pension surplus	3,221,426,000 2,382,526,000 \$ 838,900,000	2,819,222,000 2,160,754,000 \$ 658,468,000

2020 year's maximum pensionable amount (YMPE) \$58,700

## 13. Impacts of COVID-19

The outbreak of a novel strain of coronavirus ("COVID-19") was declared a global pandemic by the World Health Organization in March 2020. COVID-19 has severely impacted many economies around the globe. In many countries, including Canada, businesses were forced to cease or limit operations for long periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions.

During this time, the Municipality has remained fully operational but with restrictions on the number of individuals in the office at one time. Board meetings have been conducted remotely which has reduced the cost of Board remunerations. The Municipality has received government grants to assist with development plans. There have been no disruptions to tax revenue nor operational expense aside from additional costs for personal protective equipment. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the organization for future periods.

## 14. Related Parties

The consolidated financial statements include transactions with related parties. The municipality is related to Sask Valley Rural Water Utility under the common control of the Council.

Transactions with these related parties are in the normal course of operations and are settled on normal trade terms.

## 15. Contingent Assets

Contingent assets are not recorded in the financial statements.

## **Notes to Consolidated Financial Statements**

## As at December 31, 2020

## 16. Budget Data

The reconciliation of the approved budget for the current year to the budget figures reported in these financial statements is as follows:

	2020
Budget surplus per Statement of Operations	798,140
Less: Capital expenditures	(690,000)
Less: Transfers to reserves	(450,000)
Add: Transfers from reserves	341,860
Approved budget surplus	\$ -

## Notes to Consolidated Financial Statements

As at December 31, 2020

## 17. Prior period adjustment

During 2020 it was determined that Gas Tax Program funding recognized as revenue from the Province of Saskactchewan in 2019 and certain prior years had not met all criteria to be recognized as a government transfer. As a result, the previously recorded revenues required adjustment. The Municipality has treated this adjustment as an error. As a result the municipality has restated its 2019 comparative figures to reflect this correction as follows:

	2019 Previously Reported	Ad	djustments	20	019 Restated
Consolidated Statement of Financial Position Deferred Revenue Accumulated Surplus	\$ 200 14,435,489	\$	360,731 (360,731)	\$	360,931 14,074,758

### R.M. of Rosthern No. 403

For the year ended December 31, 2020

Report to Council
Audit strategy and results

### Purpose of report and scope

The purpose of this report dated **August 31, 2021** is to engage in an open dialogue with you regarding our audit of the consolidated financial statements of R.M. of Rosthern No. 403 (the "Municipality") for the year ended December 31, 2020. This communication will assist you in understanding our overall audit strategy and results. The information in this document is intended solely for the information and use of **council** and should not be distributed to other parties.

The purpose of our audit, our responsibilities and your responsibilities were communicated to you in our signed engagement letter dated May 12, 2020.

We were engaged to provide the following deliverables:

Financial statements and independent auditor's report

### Audit approach

Our audit approach involves identifying and assessing risks of material misstatement of the consolidated financial statements, whether due to fraud or error. Misstatements, including omissions, are material if they could reasonably be expected to influence the economic decisions made by users based on the consolidated financial statements. Ultimately, materiality is a measure of the significance of items to financial statement users, taking both quantitative and qualitative considerations into account. Without this concept, auditors would need to verify every transaction, which would not generally be practical, useful or cost effective. We apply a materiality threshold as a basis for focusing our audit work and, ultimately, to determine what matters will be brought to your attention and what adjustments need to be made to the consolidated financial statements.

The greater the risk of material misstatement associated with an area of the consolidated financial statements, the greater the audit emphasis placed on it in terms of verification. Where the nature of a risk is such that it requires special audit consideration, it is classified as a significant risk.

Due to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements may not be detected, and this is particularly true in relation to fraud. The primary responsibility for the prevention and detection of fraud rests with you.

### Auditor's report modifications

Our auditor's report contained the following modifications:

- We were not able to observe the counting of inventories at December 31, 2020 and December 31, 2019 or satisfy ourselves by alternative means concerning inventory quantities as at those dates. As a result of this matter, we were unable to determine whether adjustments might have been necessary in respect of the surplus of revenues over expenses and cash flows from operating activities for the years ended December 31, 2020 and December 31, 2019, inventory reported in supplies on the statement of financial position as at December 31, 2020 and December 31, 2019 and accumulated surplus as at December 31, 2020, January 1, 2020 and December 31, 2019. Our audit opinion on the financial statements for the year ended December 31, 2019 was modified accordingly because of the possible effects of this limitation in scope.
- As outlined in Note 8 to the financial statements, the Municipality maintains a solid waste landfill site for which it has recorded an estimate of its closure and post-closure liabilities, but in a manner that is not consistent with Canadian public sector accounting standards. This constitutes a departure from Canadian public sector accounting standards, which require the closure and post-closure liabilities to be recognized on a volumetric basis as the landfill site capacity is used, beginning when the site first accepts waste. This is the result of a cost-benefit decision taken by management not to engage a third party to determine the liability until the site is closed. The impact of this departure from Canadian public sector accounting standards has not been determined and therefore, we were not able to determine whether any adjustments might be necessary to the surplus of revenues over expenses and cash flows for the year ended December 31, 2020 and December 31, 2019 and net financial assets as at January 1 and December 31, 2020 and January 1 and December 31, 2019. Our audit opinion on the financial statements for the year ended December 31, 2019 was modified in respect of this departure from Canadian public sector accounting standards.

### Audit results

Area of focus	Matter, response and findings
Significant risk: fraud via management override of internal control	Per the Canadian auditing standards, this is a presumed significant risk. The risk relates to management's ability to override the controls surrounding financial reporting in order to report improved financial results, manipulate particular financial statement areas, or perpetrate other financial fraud.
9	Our audit procedures included testing journal entries, testing and analyzing significant accounting estimates for evidence of management bias, and reviewing significant transactions outside the normal course of business. Our audit procedures did not uncover any significant issues.
Significant risk: fraud in revenue recognition	Per the Canadian auditing standards, there is a presumed significant risk of fraucin revenue recognition. The risk is presumed to apply because past history indicates that, in financial statement frauds, revenue is an area that is commonly manipulated.
	Our audit procedures included testing revenue-related journal entries, determining that revenue recognition policies were reasonable based on the accounting standards followed by the Municipality, and were consistently applied, reviewing subsequent receipts to determine appropriate cutoff, and inquiry with administrator on variances. Our audit procedures did not uncover any significant issues:.
Significant transactions	During the year, the Municipality completed the following significant transaction: Grader purchase
Accounting practices	As part of our audit, we considered the Municipality's significant accounting practices, including accounting policies, accounting estimates and financial statement disclosures. The accounting practices applied are consistent with those applied in the prior year and appear to be appropriate based on the Municipality's circumstances
COVID-19	The COVID-19 virus became widespread in January 2020 and the magnitude of its impact increased thereafter. Management has determined that it is unknown to what extent the events of COVID-19 will impact the Municipality, however they could play a significant factor on the community in their ability to pay and service their taxes, as well as the utilization of taxes held by Municipality. The Municipality has determined that the events of COVID-19 are non-adjusting subsequent events and has included the appropriate disclosures in the consolidated financial statements.
rior periòd adjustment	During 2020 it was determined that Gas Tax Program funding recognized as revenue from the Province of Saskactchewan in 2019 and certain prior years had not met all criteria to be recognized as a government transfer. As a result, the previously recorded revenues required adjustment. The Municipality has treated this adjustment as an error.

We are required to report to you all significant findings from our audit, including - identified or suspected fraud, non-compliance with laws or regulations, unreasonable requests by management not to send confirmation requests, major adjustments to opening balances, related party matters, going concern issues and significant audit difficulties encountered. Our audit did not identify any significant findings other than those included in the table above.

### Uncorrected misstatements

Rural Municipality of Rosthern No. 403

Year End: December 31, 2020 Schedule of Unadjusted Errors

Refno	Description	Assets	Liabilities	Equity	Income	Expenses
Unreco	orded - judgmental		V - Constitution			
2	To record accrued interest	6,257,08	0.00	0.00	(6,257,08)	0.00
		6,257,08	0,00	0,00	(6,257,08)	0.00
	Understated/(Overstated)	6,257.08	0.00	0,00	(6,257.08)	0.00

Our audit identified the unadjusted non-trivial misstatements noted in the table above, which have not been adjusted because you consider them to be immaterial, both individually and in aggregate.

Our audit identified the unadjusted non-trivial misstatements of disclosure matters noted below, which have not been adjusted because current Provincial reporting requirements, which the Municipality is required to conform with, conflict with current Public Sector Accounting Standards (PSAS) reporting requirements:

- Taxes and Other Unconditional Revenue is presented as one line item on the statement of operations. PSAS
  requires that the statement of operations should report significant types of revenue separately, which would
  require these two types of revenue be reported separately. This disclosure constitutes a departure from PSAS.
- Financial statement Note 3 includes disclosure of school taxes receivable. The municipality is required to
  collect these taxes but is not entitled to them and as such they should not be disclosed in this note as a
  receivable, despite being deducted from the total taxes receivable balance reported on the statement of
  financial position. This disclosure constitutes a departure from PSAS.
- Schedules 4 and 5 which provide segment disclosure by function does not present segment revenue and expense before inter segment eliminations. This disclosure constitutes as departure from PSAS.

### Other matters

### Internal control

We obtain an understanding of internal control over financial reporting to the extent necessary to plan the audit and to determine the nature, timing and extent of our work. If we become aware of a deficiency in your internal control over financial reporting, the auditing standards require us to communicate to Council those deficiencies we consider significant. However, a financial statement audit is not designed to provide assurance on internal control.

Please refer to Appendix A for a detailed explanation of the following internal control observations noted during our audit:

· Lack of segregation of duties

### Independence

We have a rigorous process where we continually monitor and maintain our independence. We have determined that the following information regarding our independence should be brought to your attention:

A self-review threat exists in relation to the audit due to the fact that, in addition to preforming the audit engagement, we draft the consolidated financial statements and propose journal entries. This threat is mitigated by ensuring that you understand, take responsibility for and approve the consolidated financial statements and journal entries.

### **Technical updates**

### Section PS 3400 Revenues

New Section PS 3400 *Revenue* establishes standards on how to account for and report on revenue. It does not apply to revenues for which specific standards already exist, such as government transfers, tax revenue or restricted revenues. The Section distinguishes between revenue that arises from transactions that include performance obligations (i.e., exchange transactions) and transactions that do not have performance obligations (i.e., non-exchange transactions). The main features of the new Section are:

- Performance obligations are defined as enforceable promises to provide specific goods or services to a specific paver
- Revenue from transactions with performance obligations will be recognized when (or as) the performance obligation is satisfied by providing the promised goods or services to the payer

Revenue from transactions with no performance obligations will be recognized when a public sector entity has the authority to claim or retain the revenue and identifies a past transaction or event that gives rise to an asset.

Effective date: Fiscal years beginning on or after April 1, 2023.

### Section PS 3450 Financial instruments, Section PS 1201 Financial statement presentation, PS 3041 Portfolio investments, and PS 3280 Asset retirement obligations

PS 3450 *Financial instruments* is a new Section that establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. Some highlights of the requirements include:

- a public sector entity should recognize a financial asset or a financial liability on its statement of financial position when it becomes a party to the contractual provisions of the instrument
- financial instruments within the scope of the Section are assigned to one of two measurement categories: fair value, or cost / amortized cost
- · almost all derivatives are measured at fair value
- fair value measurement is required for portfolio investments in equity instruments that are quoted in an active market
- other financial assets and financial liabilities are generally measured at cost or amortized cost
- until an item is derecognized, gains and losses arising due to fair value remeasurement are reported in the statement of remeasurement gains and losses
- when the public sector entity defines and implements a risk management or investment strategy to manage and evaluate the performance of a group of financial assets, financial liabilities or both on a fair value basis, the entity may elect to include these items in the fair value category
- additional disclosures with respect to financial instruments will be required, including the nature and extent of risks arising from a public sector entity's financial instruments.

PS 1201 Financial statement presentation revises and replaces Section PS 1200 Financial statement presentation. The main amendment to this Section is the addition of the statement of remeasurement gains and losses.

PS 3041 Portfolio investments revises and replaces Section PS 3040 Portfolio investments.

Effective date: Fiscal years beginning on or after April 1, 2022

### Section PS 3280 Asset retirement obligations

New Section PS 3280 Asset Retirement Obligations establishes standards on how to account for and report a liability for asset retirement obligations. An asset retirement obligation is a legal obligation associated with the retirement of a tangible capital asset.

Asset retirement costs associated with a tangible capital asset increase the carrying amount of the related tangible capital asset and are expensed in a rational and systematic manner, while asset retirement costs associated with an asset no longer in productive use are expensed. Measurement of the liability for an asset retirement obligation should result in the best estimate of the amount required to retire a tangible capital asset at the financial statement date. A present value technique is often the best method to estimate the liability. Subsequent measurement of the liability can result in either a change in the carrying amount of the related tangible capital asset, or an expense, depending on the nature of the remeasurement or whether the asset remains in productive use.

As a result of the issuance of Section PS 3280, the Public Sector Accounting Board (PSAB) approved the withdrawal of Section PS 3270 *Solid waste landfill closure and post-closure liability* as asset retirement obligations associated with landfills will be within the scope of PS 3280. PS 3280 does not address costs related to remediation of contaminated sites, which will continue to be addressed in Section PS 3260 *Liability for contaminated sites*. Some consequential amendments have been made to PS 3260 to conform with PS 3280 and further clarify the scope of each standard.

Effective date: Fiscal years beginning on or after April 1, 2022.

# Appendix A - Internal control deficiencies

and correct, misstatements in the consolidated financial statements on a timely basis. The Canadian Auditing Standards require that, where we identify internal control A deficiency in internal control exists where the design, implementation, operation or absence of a control means that internal controls are unable to prevent, or detect deficiencies during an audit, we assess their importance and severity and communicate them to management and those charged with governance, as appropriate. Deficiencies that are of sufficient importance to merit the attention of those charged with governance are described as "significant deficiencies".

The matters reported below are limited to those deficiencies we identified during the audit that we considered to be of sufficient importance to communicate. Had we performed more extensive procedures on internal control, including procedures subsequent to December 31, 2020, we might have identified more deficiencies or reached different conclusions about the deficiencies reported.

## Significant deficiencies

Our audit identified the following significant deficiencies in internal control:

Management's response	he We recommend that Council consider introducing new controls to improve their oversight of the functions of the administrator. Such controls could include reviewing the bank reconciliation or reviewing journal entries on a monthly basis.
Description	There is currently a lack of segregation of duties within the municipality. The We recommend that Council consider introducing new controls administrator has total access to and control over all the municipality. The We recommend that Council consider introducing new controls administrator over all the municipality. The We recommend that Council consideration or record-keeping. If duties are not separated between multiple employees, there is an increased risk that the administrator could make unintentional errors or fraudulent entries and that these mispostings could go undetected.
Significant deficiency	Lack of segregation of duties in the accounting function

### Other deficiencies

Our audit identified the following other deficiencies in internal control:

Deficiency	Description	Management's response
Lack of formal assessment of business risks	It was noted that the municipality does not have a formal risk assessment process but rather an ad hoc process exists.	Management along with Council should regularly discuss potential business risks, identify when a risk may be significant to the operations and ultimately implement a relevant internal control to mitigate the specific significant risk.
Lack of formal internal control evaluations	It was noted that the municipality does not have a formal process to evaluate develop, and perform ongoing and/or separate evaluations to internal controls.  ascertain whether the components of internal control control are prese and functioning. Then management should evaluates and communicate internal control deficiencies in a timely manner to those parties responsible for taking corrective action, including	Management along with Council should regularly select, develop, and perform ongoing and/or separate evaluations to ascertain whether the components of internal control are present and functioning. Then management should evaluates and communicate internal control deficiencies in a timely manner to those parties responsible for taking corrective action, including
		senior management and the Council, as appropriate
