Sask Valley Rural Water Utility
c/o RM of Rosthern #403
P.O. Box 126
ROSTHERN, SK S0K 3R0

Dear Waterworks Owner/Operator:

RE: Precautionary Drinking Water Advisory

Please be advised that the Water Security Agency is rescinding the Precautionary Drinking Water Advisory (PDWA) for the Sask Valley Rural Water Utility's distribution system, which was issued on October 18, 2022, effective immediately this Friday October 21, 2022.

The maintenance of the SaskWater Saskatoon North Treated Pipeline has been completed and the system has been re-pressurized. The SaskWater PDWA has been rescinded. All necessary samples have been taken and have come back with good results. No positive bacteria were found in the two sets of samples. All of the proper measures have been taken to put the distribution system back into service.

In consultation with the Saskatoon Health Region, by way of this letter, we agree no potential health risk currently exists for the Sask Valley Rural Water Utility's distribution system and the advisory previously issued is hereby removed.

If you have any further questions or concerns, please do not hesitate to contact me at (306) 230-3254.

Sincerely,

A handwritten signature in black ink, appearing to read "Lee Reinhart".
